URIMAT Reference

To Whom It May Concern,

I am very glad to confirm that Tadcaster Hospitality decided to retrofit its restrooms with URIMAT waterless urinals. The first installation took place at BQ Bar (39 Boat Quay, Singapore 049828) in October 2017.

Since installation we have been very happy with the URIMAT system because it resolved typical issues of our previously water-flushed urinals:

Operationally we have eliminated the cost and trouble with choked waste-pipes due to urine scale build-up as well as the replacement of faulty flush-valves etc. Additionally, the system saves us cost for water and consumables like enzyme mats, sanitizers and air-refreshers.

Our guests have commented very positively about the improved hygienic and odor-free experience. The micro-biological cleaner by URIMAT is very effective and our cleaning staff got easily familiarized with the cleaning procedure after some initial instructions.

The urinals have a very pleasant design, they are robust, streamline and the digital advertising displays integrated in the urinals allow us to promote our offerings at our outlets.

Overall Tadcaster Hospitality supports and recommends URIMAT without any reservations.

Regards,

Adrian Philip Houghton
Director
Tadcaster Hospitality
