Head of Sustainability

ATKINS Middle East & India

Wednesday, March 25, 2009

Dear Sirs,

Subject: Urimat Urinals

We installed Urimat in our Dubai Office in January 2008. Since then in our experience Urimat has functioned as intended without problems.

The hydrostatic siphon mechanism at the heart of the Urimat system is both innovative and economical. It avoids the use of any sealing chemicals and is long lasting.

We believe that Urimat Systems can significantly reduce water consumption in the Middle East

Urimat Urinals fit the design and philosophy of 'Sustainable Development' and we can highly recommend this product.

Regards,

Nicholas Lander
